Jesus Christ walks amongst us in his human nature

animal sacrifice atonements

early dispensational period

Approx. 4112 B.C. Creation of earth and mankind. (early chapters of Genesis) Adam and Eve begin the bloodline of the entire human race. Sin then begins.

Over these early centuries, the world's populus (except for Noah and seven others of his family) become more and more rebellious towards God, and are destroyed.

Approx. 2456 B.C. The Flood

Approx 2080 B.C. Ishmael is born to Abraham.

Approx. 2066 B.C. Isaac born to Abraham, who continues the bloodline of those that generally would become the nation of Israel.

Ishmael fathers the basic race of people who would later become the present-day Arab nations.

33 A.D. Christ is crucified, resurrected, and ascended into heaven, whereby he takes the place of animal atonement for sins, and by his blood is the one and only mediator between God and men for our sins, as the lamb of God.

70 A. D. Fall of Jerusalem by Romans

110 A.D. Ignatius writes in an epistle that, "One should look upon the Bishop as upon the Lord himself", beginning what becomes the central Bishop authority over local church elders, becoming Papal authority in later years.

Era of persecution begins under Nero, Diocletian, etc. Devoted Christians who refuse to compromise their faith head underground into caves and catacombs to avoid Roman torture.

313 A. D. Roman emperor Constantine declares that he has had a vision, and ends the persecution of Christians, as long as they agree to compromise with the Pagan population who were the majority at the time in Rome. Many weaker Christians submit to this compromise to avoid further persecution. Mary worship, Statue and image worship (etc.) begins here.

Christians who are genuinely devoted to God remain underground, rather than compromise with the Pagans. This illustrates the "few" (matthew 7:13,14) who remain faithful, and discretely spread what later will be referred to as "Protestantism" by the Catholics.

Weak Christians compromise with Rome.

440 A.D. Rome names its first Pope, then manufactures a list of previous Popes back to (and including) Peter.

720 A.D. The "Venerable Baede" translates the Book of John into English, opposing Catholic law to keep Bibles out of the hands of anyone but their higher clergy. Torture, then even death penalties begin for teaching or possessing a Bible in the "common tongue".

1215 A.D. Rome creates "Transubstantiation".

1274 A.D. Rome creates "Purgatory".

1516 A.D. John Tetzel sells indulgences.

1517 A.D. Martin Luther nails the "95 thesis" to the door at Wittenburg, triggering the reformation.

3 centuries of intense "damage control" and "re-grouping" within the Vatican.

1854 A.D. "Immaculate Conception" devised.

1870 A.D. Decree of Papal Infallibility.
