

# God's perfect peace

This person is on the proper side of God's law. It is easy to rest in the disciplines that God has created for us when you are on the right side of it. He has discovered that once you learn to understand the peace in being on the right side of God's law it really is easy to be at peace being above your old sins.

**Climb up God's ladder of maturity the proper way, by the front. Don't fool yourself thinking that you can cheat and wiggle your way up the backside trying to avoid God's law, for it won't work.**

This is how true Christians are "above the law by grace" as we have accepted the law as a place of comfort and protection from our own evil ways, and not as a burden for us from a "mean" god.

This person is on the wrong side of God's law. He struggles everyday to try and find peace from this side, trying to live with his feet close to the worldly ways he can't bear leaving.
